

## Tyto Software short listed in 2015 European Software Testing Awards

**DQW NEWS BUREAU**  
Bengaluru, September 15

**T**yto Software, creators of Sahi OS and Sahi Pro, is pleased to announce that it has been selected as a finalist for TESTA (The European Software Testing Awards) in the "Best Test Automation" category. TESTA, an independent awards program promotes best practices and innovation in the software testing and QA community, and celebrates outstanding companies and individuals in the software testing market.

Tyto's customer Aris Global was able to adopt best practices including Automation Function Library, Test Case Grouping and Error Handling. Aris Global achieved saving of near 80% in their test execution effort while doing validation of one of their product release. This was achieved using the tool's strengths including Browser independence, Key-word driven test automation, Data-driven test automation. Also, Aris Global resolved some of the crucial testing challenges using Sahi APIs for identifying objects that have dynamic identifier and using configuration in Sahi tool for preventing script failure due to delay in screen rendering.

V. Narayan Raman, Founder and CEO of Tyto Software said "We are excited to be a finalist for

best test automation project for the usage of Sahi Pro Test Automation Tool. This is also a validation of the huge benefits that our customers worldwide are achieving from our tool. It's great to achieve industry recognition for the innovative solutions we are delivering for our customers."

Tyto Software has been recognized as one of the 30+ Enterprise startups from India that have taken the world by storm in a recent article by YourStory. Tyto Software and its flagship product Sahi Pro has been mentioned in the Gartner Magic Quadrant for Integrated Software Quality Suites - 2014 and 2013 Forrester report on Navigating The Agile Testing Tool Landscape. Sahi's penetration into IT organizations is also acknowledged in "The Forrester Wave: Modern Application Functional Test Automation Tools, Q2 2015".

Sahi Pro, the flagship product of Tyto Software, with its simplicity and power, increases the efficiency and productivity of Quality Assurance and Testing teams in their web test automation process. Its features like good recorder, automatic waits, inbuilt frameworks, and automatic reporting reduces the team's technical expertise required, ensuring faster delivery cycles, especially in agile environments.
